Request for Repairs

I am writing to ask you to do repairs at the rental property listed above. Minnesota State § 504B.161 says that residential landlords have to do the things listed below. It doesn't matter if the lease is in writing or not.

- (1) Keep the home and all common areas "fit for the use intended by the parties"
- (2) Keep the home in "reasonable repair"
- (3) Keep the home at a minimum temperature of 68 degrees Fahrenheit from October 1st through April 30th
- (4) Make sure the home meets health and safety laws of the state and local government
- (5) Keep the home "reasonably energy efficient by installing weatherstripping, caulking, storm windows, and storm doors"

These are called the "Covenants of Habitability." They are set by law and can't be changed or ignored, even if the lease says something different. The landlord is responsible for repairs to the home unless the tenant damages the home on purpose or by being reckless or careless.

Please make the following repairs within the next 14 days:

~	PROBLEM	WHEN IT STARTED	DESCRIPTION
	INFESTATIONS		
	Mice		
	Cockroaches		
	Bed bugs		
	Other		
	ELECTRICAL		
	No/broken smoke detector
